SUMMARY

Computer Science and Engineering graduate with a solid understanding of programming and software development fundamentals, along with a strong interest in problem-solving and learning new technologies. Passionate about creating websites and exploring modern web development, especially through the use of AI tools to turn ideas into practical and creative projects. Always eager to experiment, improve technical skills, and take on new challenges while growing as a developer.

TECHNICAL SKILLS

Programming Languages

- C, C++, Python, Java

Web Technologies

- HTML, CSS, PHP, Django

Database Management

- MySQL

PROJECTS

Food Order System

- Developed an online food order system allowing users to browse menus and place orders.
- Technologies Used: PHP, MySQL, CSS
- GitHub: [Online-Food-Order-System-Project](#)

Gym Management System

- Created a comprehensive gym management system that enables users to manage memberships and bookings through a web interface.
- Technologies Used: PHP, CSS, MySQL
- GitHub: [Online Gym Management System](#)

Hospital Appointment System

- Designed and implemented a Hospital Appointment System to facilitate scheduling appointments and managing patient records.
- Technologies Used: Python, SQLite
- GitHub: [Hospital Appointment System](#)

EDUCATION

Bachelor of Science in Computer Science and Engineering (CSE)

Jan 2020 - Sept 2025

Rajshahi University of Engineering & Technology (RUET)

Relevant Coursework: Data Structures, Algorithms, Database Systems, Software Engineering, Artificial Intelligence, Computer Networks, Computer Architecture, Machine Learning

Higher Secondary Certificate (HSC)

June 2017 - May 2019

Notre Dame College, Dhaka

Group: Science

Achievements: GPA 5.0 &
Government Scholarship

Secondary School Certificate (SSC)

completed in 2017

Chattogram Collegiate School

Group: Science

Achievements: GPA 5.0 & Government Scholarship

CERTIFICATIONS AND AWARDS

- Python Django Course, EDGE Project (World Bank & Government of Bangladesh Initiative)
- Recognition for participation in the Round One Assessment of IYS2020

RESEARCH/THESIS:**A Comparative Study of Traditional and Transformer-Based Models for Detecting Cyberbullying in Bengali Social Media Comments**

- Focused on developing a hybrid framework combining machine learning and deep learning models (e.g., Naive Bayes, CNN, GRU, BanglaBERT) for detecting cyberbullying in Bengali social media.

ADDITIONAL INFORMATION

- Languages: Bengali, English
- Hobbies: watching documentaries, exploring emerging tech trends.
